MARKET SIZE

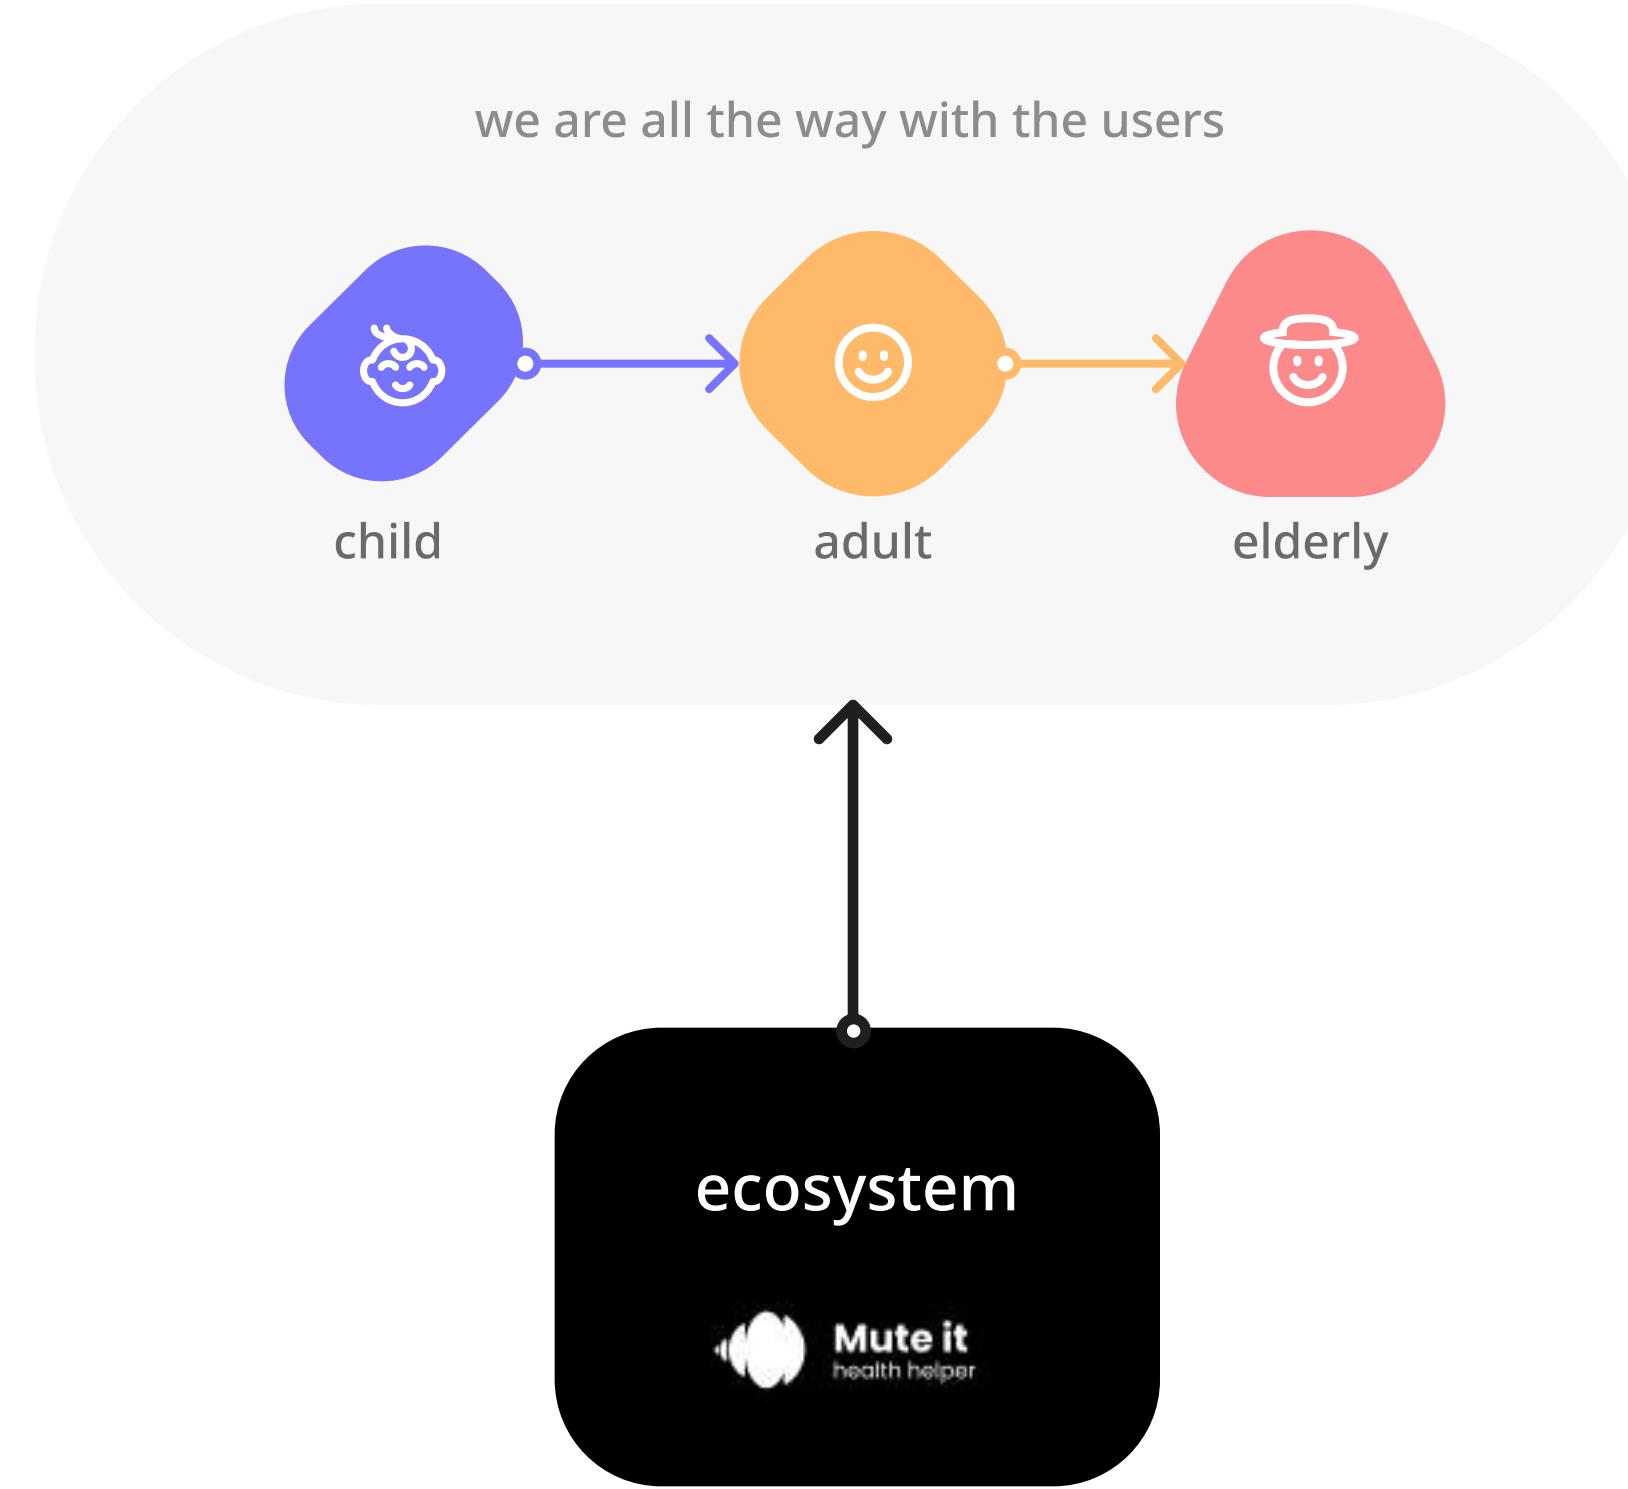

Prevention of chronic bowel diseases
and their exacerbations

Aleksei Dolgikh

The market is so huge,
that I'm shocked myself

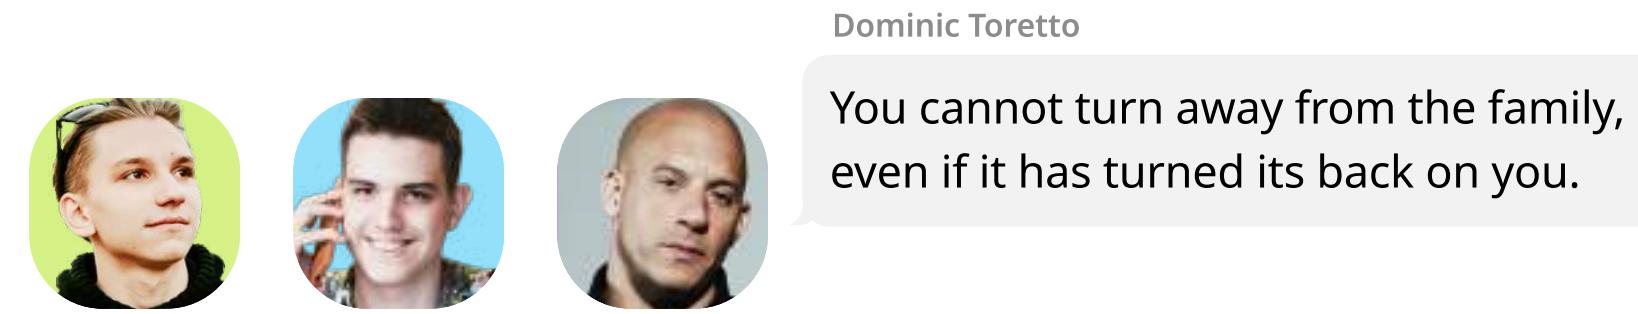

Helper for your bowel helth

If you need to seclude to masturbate

If you are afraid of going the the toilet ouside of your home

Family – that's who we want to work with

60% of new cases of bowel diseases are children, chronic diseases, on the other hand, are more common within adults. That is why user life time can be considered decades

We create innovational ecosystem of user care

Ivan Ushmarov

I've been generating innovations
for more than 10 years

1 Ecosystem of products

Solves bowel problems and problems
with shynes when going to the toilet

2 Working with mental problems

We do this through an innovative monitoring
system and division of problems into 3 areas:
biological, psychological, lifestyle

3 Cooperation with institutions

We will cooperate with government institutions
and suggest glocal solutions

4 Subject matter experts

Our team already has potential specialists:
doctors and psychologists who are working
on the ecosystem
